Dante Vernados Blackflame

Summary

Biography

Dante's childhood was one of both learning and suffering. Born of an angel mother and one of the fiercest demons, he felt outcast from the entirety of his family, neither completely welcome in darkness or light. To make matters worse, his father decided to complete his training in the hell dimensions from which the Blackflames originated. The creature that came back to Ayenee several years later was not quite what his father had anticipated, however, and instead Dante chose to go his own separate way rather than continue persuing Damaris' twisted goals. Now much older and far more wise, he's realized that being an outcast in a family full of them is far from the worse fate one could receive.
