## **Driver Keys**

Driver Keys are magi-tech items to activate the Brace Drivers.

## **Key Structure**

The structure of a key is a long, thin spike with protrusions around the sides. They often have a blend of two colors to match the active element/concept represented on the key. They often glow when near an active driver and host, but often times remain large, useless heaps of metal when not used within a driver.

## **Key Types**

- **Cyclone:** A key built around swift, piercing momentum, and high mid-air velocity. Reman's Most active key.
- **Steel:** Built to be like the material, it is strong, durable and tough. Reman's (Stolen) Secondary key.
- **Voltage:** This key is built around electricity, and swift, instant strikes. ???'s Key.
- Inferno:
- Phase:
- Zone:
- Trigger:
