

Jade Dragon

The Jade Dragon is a creature of the skies and mountains of Ayenee, living far from [Ayenee Capital City](#).

They are quadropedal when walking on the ground, which they are capable of doing thanks to their slim legs and small feet. They have large and obtrusive, working wings and ridged crowns of their heads and necks. They are a mixture of pale, desaturated green and white with orange and red eyes. They develop from eggs and grow slowly over hundreds of years.
