#### The Great War Begins

One of the Darkthorne armies are attacked by General Jarkeld aboard his flying armada, both forces. Eseer appears on the battlefield and aids in shooting down Jarkeld's flagship. General Jarkeld in a bid to slow the Darkthorne's approach flies the doomed vessel into the middle of the army's ranks. The ship explodes, but Eseer is able to recover.

The force moving on Velusia is met by an army of druids and shamans, led by Adrian and Desmond Blackthorne. They are pushed back and routed only after the loss of Desmond Blackthorne.

Meian is attacked by the combined force of orcs, gnolls, and Darkthornes. Reese Blackthorne is in Meian, he helps Tsuki Hasu escape as her sister casts a powerful spell to close off Meian. The Darkthorne leader of this specific force manages to alter her spell and the entire kingdom vanishes.

Celine, Corban, and Tyrion elect to stay and aid in the defense of the capital city.

Darkthorne ships attack the coalition vessels led by Xelilo Peshang, Lone Ashtir, and Tania and Talis Dhoom. Many of the ships are destroyed, but Blackthorne vessels and dragon turtles arrive in time to send the Darkthorne vessels into a retreat. Xelilo, Lone, Tania, and Talis are presumed dead. Xelilo and Lone find themselves on the beaches of the forbidden jungle, where they are hunted by cannibals. The mysterious cat-person Lynx aids them in escape and offers he and his fellow catpeople's aid in the war efforts.

The Darkthornes are welcomed in Lysia and aid Janus in other throwing its king. Lysia now under the rule of Janus Stormrider agrees to lend its aid to the Darkthornes. They invade Riven and ransack the land, burning farms and villages, forcing the small kingdom of Riven to rethink joining the coalition. The Queen of Riven, Livandra Shadowhawk, is forced to flee with her knights and joins with coalition forces near Regalia and Vanguard to help push back forces of the dark alliance there.

The capital is surrounded by Dark alliance forces. Eseer unleashes a Tarasque on the defenders of the capital. Corban defeats the Tarasque, Leo Solarstriker coordinates defenses, Varsinax sets his sights on Leo as the leader of the coalition resistance. Eseer agrees to get Varsinax in the city and to get him close enough to the lead defender. Eduardo is called into battle and begins to clone himself, his clones meet off with Corbans clones in sort of a stalemate. Celine finishes building a powerful weapon atop a high tower and fires it upon the Darkthorne forces. Eseer ensures that Eduardo's charge Sally is caught in the ray and incinerated.

The "Crescent Moon" is shot down and crashes into one of the city walls, creating an opening. The dark alliance forces pour in and the defenders begin to evacuate the city. Varsinax engages Leo Solarstriker in single combat and wounds the leader of the coalition severely. Celine, Corban, Aaron, Tyrion, and Haile aid Leo and help lead the citizens flee the city. Tyrion dies protecting the evacuation line and Celine hastily retrieves the Dhoom prince's corpse.

Refugees pour in to Stryga, the Eastern Republic, and Caloria. Celine and Corban bring the corpse of Tyrion to Stryga before returning to the Western Republic.

The leaders of the Dark Alliance marched into the city capital, their forces picking off the remaining defenders. Eseer leaves Dramond and the Duke in charge of the Darkthorne forces in the capital city.

Stryga pushes back the Darkthorne after heavy losses and joins the coalition. The Darkthorne forces are pushed back to Remoria, Riven, and Luxor in the South. The other dark alliance forces set up bases in Western Ayenee and Central Ayenee.

### 1 year after the Great War

Varsinax maintained his rule through the use of allies and armed force. The comet Yahell named after the pagan god of creation and destruction marked what many called the cataclysm. This occurred at the end of the great war, with it blue fire rained down from the sky, the face of Ayenee was changed. Kingdoms would slowly start to vanish, entire legacy's forgotten, but through all this darkness and ruin, his rule remained.

### Conclusion

Current events call into question, alternate time lines. They also beg the question, what happened to Leo Solarstriker? were the Darkthorne forces removed from the territories they claimed? What happened to the other forces of the Dark Alliance? How did this event effect the landscape of Ayenee?
